Re: Criminal Complaint for Elder Abuse of Joe Biden

Since 2020, it has been increasingly clear that Joe Biden, 46th President of the United States, is not of sound mind, is being abused under duress by his handlers, and cannot make decisions for himself. The Democratic National Committee (DNC), located in Washington, DC, has perpetuated elder abuse for over three years in its inhumane handling of Joe Biden.

Joe Biden assumed the office of President of the United States on January 20th, 2021. It was immediately obvious to most Americans that as the oldest person to ever serve as President, Joe Biden suffers from cognitive and mental decline.

On June 13th, 2021, Joe Biden confused Libya with Syria not once, but several times during a G7 Press Conference. <https://www.newsweek.com/joe-biden-mixed-syria-libya-g7-press-conference-1600340>

While delivering a speech at South Carolina State University during its 2021 Fall commencement ceremony, Biden referred to US Vice President Kamala Harris as “President Harris”. The US President said, “... all kidding aside, of course, President Harris, who’s a proud Howard alum, she might have something to say about Delaware State.”

On October 31st, 2021, Biden fell asleep during a COP26 Conference in Scotland. His aide had to awaken him. <https://nypost.com/2021/11/01/biden-nods-off-during-cop26-climate-conference/>

On November 20th, 2021, during his first Presidential physical, Joe Biden said that he was going to celebrate his '58th' birthday while it was his '79th' Birthday.

On December 2nd, 2021, Joe Biden confused Yom Kippur with the Six Day War during a White House Menorah lighting ceremony. https://denvergazette.com/news/biden-confuses-six-day-war-dates-at-white-house-menorah-lighting-celebration/article_ad43df38-7105-536b-b653-ad854a65a8bf.html

On March 1st, 2022, Biden mistakenly referred to Ukrainians as Iranians in a White House press conference. <https://www.nydailynews.com/2022/03/01/biden-mistakenly-says-iranians-instead-of-ukrainians-in-state-of-the-union-speech/amp/>

On June 18th, 2022, Joe Biden fell off his bicycle in Delaware. His aides were forced to scramble to help him. <https://www.nbcnews.com/politics/joe-biden/biden-bounces-back-bike-fall-delaware-beach-home-rcna34251>

On June 1, 2023, Joe Biden visited the Air Force Academy in Colorado Springs. He fell on stage because he did not see a small sandbag and became tripped. [Biden falls at Air Force Academy graduation ceremony](#)

By July of 2023, Biden's aides realized they had a serious problem on their hands. Joe Biden is not only senile; he is at serious risk of falls and public gaffes. Instead of obtaining the appropriate healthcare for Joe Biden and calling for him to step back from his office, White House officials began scrambling to prevent more serious incidents. Covering up the declining health of their President took precedence over doing the right thing. Their actions constitute the criminal behavior of elder abuse. <https://www.nbcnews.com/politics/joe-biden/joe-biden-age-re-election-short-stairs-air-force-one-rcna95355>

Biden continued to be paraded around the world as President in 2023 and 2024, shuffled from one event to another by his handlers, without regard for his health. In fact, the world stage had become increasingly aware, after two years of Biden's Presidency, that the White House was abusing Joe Biden in his feeble state. The DNC continued to assert that nothing was in fact wrong with Joe Biden. This predatory behavior towards an old man who cannot remember when his son died or stay awake during international conferences has continued unchecked by any criminal authority. <https://www.nbcnews.com/politics/joe-biden/joe-biden-age-re-election-short-stairs-air-force-one-rcna95355>

On September 4th, 2023, Joe Biden fell on airplane stairs in Detroit. The White House blamed this incident on spinal arthritis. <https://www.foxnews.com/politics/biden-nearly-stumbles-exiting-air-force-one-hours-exposed-efforts-team-prevent-falls>

On February 6th, 2024, Joe Biden confused Macron with dead French President Mitterrand at a campaign speech in Las Vegas.

Most recently, a Special Counsel report conducted by Robert Hur determined that Joe Biden should not be charged criminally for removing classified documents from the White House because he is mentally unfit to answer questions and suffers from limited memory.

According to Hur, Joe Biden forgot when he served as Vice President during the course of the investigation. <https://www.justice.gov/storage/report-from-special-counsel-robert-k-hur-february-2024.pdf>

Joe Biden also forgot when his son Beau died, according to Hur. On February 8th, 2024, Joe Biden's DNC handlers called a press conference for Biden to defend himself, but during that press conference, [he mistakenly referred to Egyptian President Abdel Fattah el-Sisi](#) as the president of Mexico.

Joe Biden's home state of Delaware defines elder abuse:

Title 31, Chapter 39, "The General Assembly recognizes that many adult citizens of this State are subject to psychological or physical injury or exploitation because of physical or mental disability, impairment, illness or condition or other causes which render them incapable of providing for their basic daily living needs"

Biden was found to be mentally incompetent in the Hur report, and instead of calling for his retirement, the DNC continues to behave without regard for Joe Biden's health or wellness. Biden is clearly feeble, barely able to walk up stairs or ride a bike, unable to stay awake during important events, and unable to sort out important details in most of his speeches. Now 81 years old, Joe Biden is the clear victim of long-standing elder abuse.

While the DNC continues to perpetuate elder abuse and the national media laughs at Joe Biden, we can no longer stand by watching this criminal activity. Colorado Republicans are scared for Mr. Biden's diminished state and the potential repercussions of continued elder abuse on his frail mind and body. We are also concerned for the welfare of every United States citizen, who is subject to Joe Biden's serious errors. We fear that the next error could have even more grave consequences than Biden's irresponsible behavior at the United States/Mexico border. The Hur report confirms what Americans already knew; Joe Biden, who is in control of our national security, our borders, and our general success or disastrous failure as a nation, is not in control of his mind or his body. Yet the DNC continues to control Biden's everyday actions, committing the very definition of elder abuse.

We ask that the authorities conduct an immediate welfare check, as well as a mental fitness test and physical fitness test, in order to determine if Biden is able to carry out everyday activities, or if, as evidenced by the narrative outlined herein, the DNC continues to carry out those activities for Joe Biden in order to secure the rest of Joe

Biden's Presidential term for Democrats. Additionally, the DNC continues to perpetuate a campaign of lies in its assertion that Biden is able to serve another 4 years as President.

We call for the immediate prosecution of immediate staff members and those closest to Joe Biden who are clearly abusing him and/or have abused him during his tenure as President; including but not limited to Kamala Harris, Jill Biden, Joe Blinken, Jake Sullivan, Lloyd Austin, John Kerry, and every aide to Biden from January 20th, 2021, to February 10th, 2024.

Respectfully,

Dave Williams
